PESHTIGO RIVER RAFTING/KAYAKING

WILDMAN
Adventure Resort

Check-in at the Wildman Adventure Resort Peshtigo River Outpost

N12080 Allison Lane | Athelstane, WI 54104

DESCRIPTION:

The Peshtigo River is a class II-IV river that is know as one of the longest continuous stretches of whitewater in the Midwest. The water levels on this river rise and fall throughout the season, with the most exciting whitewater in the spring (around April and May). We have five different styles of rafts and kayaks, all of which are appropriate for different water levels. During the spring, it is common to run the river in large 10 foot rafts. During the summer months, you will more likely find yourself in an individual inflatable kayak.

Our shuttle bus takes you upstream to the "put-in" where you will experience all of the whitewater action of the famous "Roaring Rapids" of the Peshtigo River. Granite rock formations and spectacular scenery are encountered along the tree-lined shores of the river. The Wildman Adventure Resort has private access to the river frontage along the rapids, which means that you can hike and scout the rapids before you go rafting. Our private landing by the rapids allows you to re-run the most exciting rapids on the river without trespassing!

During summer periods of low water levels, you can spend more "playtime" in the rapids and take out at the Peshtigo River Outpost, avoiding the rocky section downstream. At higher water levels, when the rocks are hidden, we run the rapids past the Peshtigo River Outpost to our lower take-out. All Peshtigo River trips are appropriate for first timers.

WHAT TO BRING:

On warm days wear swimwear and sneakers or river shoes (no flip-flops or bare feet). On cooler days, you will need a windbreaker, or synthetic pullover (try to avoid wearing cotton). Wetsuits , paddle jackets, booties, and gloves will be provided during the spring season and are available to rent during the remainder of the season.
